■ Introduction

Flycam introduces - a Professional Flowline Master Camera Support which ensures comfort & lets you shoot 24x7. Professional video stabilizer system is designed to reduce the static load on the neck and shoulder muscles and distributes it to your torso. Its Body Vest is made with soft padded breathable fabric which provides immense comfort. The great feature of the vest is that it has flexible belt system & adjustable vest rods on sides which allow easy fit for all body types. The body-mounted support system comes with a powerful suspension rope which is attached to your camera with a rubber-grip hook. The rope enables you to take the ground level shots. It also delivers the hands-free operation giving absolute rest to the hands while retaining stability and control. Flowline is properly packed in a protective bag pack to ensure the safety of the product & for travel convenience.

■ What's In The Box

Please inspect the contents of your shipped package to ensure you have received everything that is listed below.

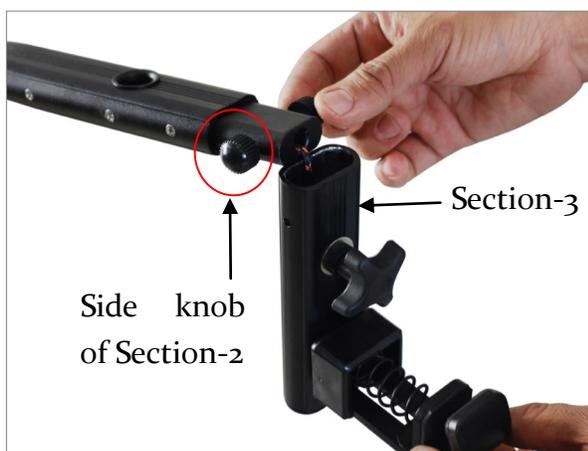

■ Assembling

- Join section-1 of support bar to section-2 with simple push-fit technique.

- Remove the side knobs and join section-2 with section-3 and again tighten the side knobs.

- Tighten & adjust the buckles provided at the chest and at the waist.

- Loosen the knob of hook and attach the camera with it. Tighten the knob to ensure slip free connection.

NOTE: Through the Balance Adjustment Knob, you can adjust the tension anticlockwise according to the weight of your setup .

CAUTION: Do Not release the Lever without removing the setup. It may result in serious damage to the camera.
