

Swiss precision for excellent audio quality

VOICE TECHNOLOGIES

VT403WA Waterproof Vocal Lavalier Microphone

Stage your adventure.

The VT403WA is a professional waterproof RF protected lavalier microphone suited perfectly for musicals, vocals, theatre, movies and broadcasts. Even with its small dimensions, it displays an enormous presence when it comes to sound: The VT403WA is based on the successful vocal microphone VT403 that is known for its excellent performance at high sound pressure levels. The ultra-miniature Hi-SPL microphone is used with a wireless body pack transmitter and impresses with an open and clear sound.

The WA version features a waterproof, sweat resistant body as well as a cable that is extremely reinforced against sweat, cuts and tearing. This makes the VT403WA nearly invisible lavalier microphone perfectly suited even for the most adverse conditions on stage.

The Voice Technologies VT403WA comes in the solid, waterproof VTO box with the following accessories:

- AC4 Alligator Clip
- DM4 Dracula Clip
- MMC4 Miniature Magnetic Clip
- RBM Rubber Body Mount
- Wsi Miniature Windscreen

Application area: Film - Stage - Musical - Vocals
