

## RS31 Footswitch

- High-End professional footswitch
- Easy control of transcription software (play, stop, rewind, EOF/BOF etc.)
- Centre or top pedal can be locked
- Extra wide centre pedal
- For hands free control of your transcription player
- 4 button USB footswitch (3 + 1)
- Optimized for shoe sizes up to 46 (EUR)
- Extremely durable and long cable (2.5m)

## Premium footswitch

This premium footswitch permits hands free control of Olympus or compatible third party transcription software. Via the footswitch various commands like Record, Play, Stop, Reverse, Save and Create New File can be controlled. It provides 4 buttons while the center and top paddle are lockable on demand. In conjunction with a dockingstation and the DS-7000 or DS-3500 hands free dictation is possible, too.
