FOR HANDS FREE USE

www.aquapac.net

SINCE 1983 WE HAVE SOLD NEARLY 6 MILLION WATERPROOF CASES IN 60+ COUNTRIES WITH OUR AWARD WINNING INNOVATION THAT STANDS UP TO THE MOST INTENSE CONDITIONS.

Aquapac cases are proven to be:

RELIABLE

Designed with quality materials to withstand extreme cold and heat

DURABLE

Battle-tested to ensure the highest standards of keeping essential and valuable equipment functioning and protected everywhere

TRUSTWORTHY

Used by Military, Coast Guard, Emergency Services and Safety & Rescue Teams in life and death situations

OPTIMAL

Strategically designed to enable hands free use as much as possible

ENVIRONMENTALLY FRIENDLY

Made from biodegradable or recycled components

PRODUCT EXTENDING

Reduce corrosion of printed circuit boards in electronics – even waterproof units

PROTECTED

5-year no-nonsense warranty on most products

Made in Britain

Over 80% of our products are made in the UK in our own factory.

WATERPROOF RATINGS

IPX6

Stormproof

Protected against powerful water jets – water projected at all angles via a 12.5mm / 0.49" nozzle

IPX7

Submersible

Protected against immersion for 30 minutes to a depth of less than 1m / 3'

IPX8

Submersible

Protected against continuous immersion to a depth of 10m / 30'

OPERATING TEMPERATURE

Our cases are designed to work between:
-20° C / to +45 C° or -4° F to 113° F

FULL 5-YEAR WARRANTY

Our warranty covers any Aquapac for five years from the date of purchase as new.

Our five year warranty covers defects in materials or workmanship. It does not cover defects caused by accident, animal attacks, neglect, normal wear and tear, improper care, or failure to follow our written directions available on our website at www.aquapac.net. It does not apply if examination or testing show an alleged defect does not exist.

It covers the product only, and not any items you may put inside the product. We are not liable for the cost of repairing or replacing any such items or any other incidental, consequential, special, or other damages. Some states and territories do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Aquasac economy phone cases and accessories carry a one year guarantee.

BIODEGRADABLE TPU

How long does the Biodegradable TPU plastic used on Aquapac cases take to biodegrade?

There is no specific testing standard for TPU but tests have been carried out. With heat and water acting as a catalyst, TPU will biodegrade faster.

However, if TPU lies in the ground by itself in a dry condition, it will last longer. Average biodegrade time from two to five years.

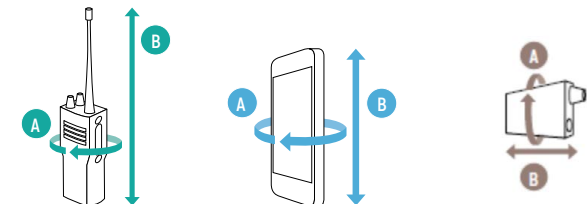

TECHNICAL SPECIFICATIONS

We have shown dimensions to all products wherever possible in metric and imperial measurements.

For phones, two-way radios and radio mics:

To calculate A = add together the width and the depth of your device and multiply by 2 i.e.

iPhone 11 = 7.6cm wide + 1cm deep = 8.6cm x 2 = 17.2

AQUACLIP IPX8 SEALING SYSTEM & IPX6/7 CLOSURES

Our patented AQUACLIP sealing system was ground-breaking as it is made entirely of plastic, it is the first entirely rustproof, durable reusable sealing system.

New Ergonomically designed 105mm Aquaclick waterproof to 50m/165'

New 105mm Aquaclick with ergonomic design – ideal to wear close to the body – easy and secure to use.

AQUACLIPS allow for lanyards and shoulder straps to be attached so the user can safely and practically open and close as well as carry an Aquapac.

The AQUACLIP has been independently tested and proven to be:

- **Waterproof for 30 minutes underwater to a depth of 10m / 30'**
- **The 85mm & 105mm AQUACLIP are waterproof to 50m / 165'**
- **Withstand a temperature range of -25C / -13 F to 50C / 120F**
- **Able to be opened and closed over 5,000 times.**

The AQUACLIP comes in 9 different lengths from: 85mm to 35cm / 3.3" to 13.7".

The TC AQUACLIP

Waterproofs a cable up to 2.5mm / 0.1" to an IPX6 waterproof standard.

IPX8 AQUACLIP

Sections of 350mm and 130mm. Aquaclicks closed and ready for use.

IPX8 AQUACLIP

The case is designed to stay attached to the AQUACLIP even when you open the case enabling simple practical use.

IPX6/7 Closures

We also use a range of other sealing systems for non-submersible waterproof protection, including combinations of triple roll over, Velcro, heavy duty ziplock and double ziplock seals.

LIGHTS. CAMERA. NO WATER.

"Great products! They were one of my secret weapons for getting the sound.
They definitely helped us win the Oscar, as well as the BAFTA nomination."

Mark Ulano, Sound Engineer, 'Titanic'

AQUAPAC DOCK SYSTEM RETROFIT KIT

369 phone case in use with stud plate and 913 webbing belt
with 38mm / 1.5" 971 belt slide on dock

The Aquapac Dock System connector stud can be retrofitted to any Aquapac case in a few minutes.

All you need to do is wipe the area you want to stick the stud with the surface cleaner, peel off the red liner and press to the mounting position and apply firm pressure for ten seconds. For a complete bond apply the stud plate and leave it for 24 hours before using it. After 20 minutes, it has bonded sufficiently for most applications.

This world class 3M VHB tape has been thoroughly tested for over ten years in every environment, from underwater, to the coldest and hottest temperatures on the globe.

This is usually a permanent installation but if you ever want to remove the stud and tape from the case, instructions are available on our website.

" My favourite Aquapac product – the Waterproof Phone Case – is even more versatile with the Dock System. I use the phone cases more than anything else and they continue to impress me that they last so long; the most vital piece of kit that I have from the Aquapac range. Incorporating the new Dock System on the Waterproof Phone Case is a fantastic addition. It can be positioned anywhere, in easy view without the risk of it flying out your pocket. Genius."

Tim Wiggins, Extreme Sportsman

CUSTOM CASES & LOGO PRINTING

Aquapac have been printing logos and making custom cases for over 35 years for various sectors including:

- Coast Guard
- Military
- Medical
- Industrial
- Agricultural
- Clothing Manufacturers
- Communications

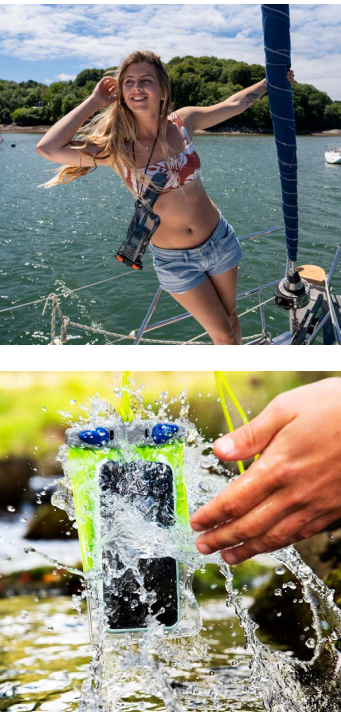

Our product development team will help you create the best solution for your requirement. We can make special cases as shown in the images.

Print company logos or any message for a minimum of only 100 IPX8 Aquapac cases. We require artwork, pantone or CMYK reference for the colours you require.

We now offer Custom Sewn as well as High Frequency Welded Bags, Cases & Covers.

AQUAPAC PAST, PRESENT & FUTURE

- '83** SINCE 1983 WE HAVE BEEN A GLOBAL LEADER IN WATERPROOF CASES

OUR CUSTOMERS

Our products are used by Search & Rescue teams, Emergency Services, Coast Guards, lifeguards, forestry managers, shipping companies and by many other outdoor workers all over the world. They are also used by hikers, mountain climbers and water sports enthusiasts as well as travellers.

We have supplied some of the leading companies and organizations in the world including Nokia, Sony, Jaguar, Motorola, Range Rover, the Winter Olympic Games, the US Coast Guard, the Royal Navy and many others.

OUR MISSION

Design and manufacture high quality products which protect valuable equipment and possessions to make the outdoors safer and more enjoyable.

We look to offset and minimise more and more our environmental impact every year. We love nature, the great outdoors and we have a role to maintain it.

We aim to treat our customers the way we like to be treated ourselves. There is always more to be learnt from listening to what our customers want.

We want to empower people to immerse themselves worry free in their activities wherever they go.

Our Global Headquarters for all our brands, where all our manufacturing and assembly is based, is in Nelson, Lancashire.
