## ■ Welcome To Proaim!

Dear Client,

On behalf of all the people that work so hard to provide you with the most up-to-date, flexible and cost-efficient production gear, we would like to welcome you into the Proaim family.

By purchasing your Proaim Gripmax Vibration Isolator Suction Car Mount, you have just joined a host of designers, engineers, machinists, assembly, customer service and office staff that take great pride in all that they do. Our mantra of continuous improvement has been the guiding principle of how we conduct our business since day one.

Once you have the opportunity to experience your new Proaim Gripmax Vibration Isolator Suction Car Mount, we hope you will agree that we craft quality products at a competitive price. Products designed to meet and exceed the standards of today's real production world.

Standards set by our valued clients and standards we strive to maintain.

With Best Wishes,  
Proaim Team

## ■ Introduction

Proaim Gripmax is a high quality, four point precision suction mounting device. It is a multipurpose modular car grip system that promises to deliver a wide variety of smooth, professional looking shots in conjunction with some of the most popular 3-axis gimbal stabilizers such as the DJI Ronin/Ronin M/Ronin MX and Movi models, when attached to a vehicle. It can be deployed to its standard configuration and ready for your gimbal in a few minutes.

## ■ What's In The Box

Please inspect the contents of your shipped package to ensure you have received everything that is listed below.

Gimbal Vibration Isolator

4 x Suction Cups with Rosette Extension Arms

4 x Rubber Sleeves

4 x Dust Covers

2 x Safety Belts

Hard Case

## Safety Hints

**ATTENTION: PLEASE READ THIS BEFORE USING TO PREVENT SERIOUS DAMAGE TO EQUIPMENT!**

### **BE CAUTIOUS OF CLEANLINESS & ADHESION**

Always make sure that the suction cups and mounting surface must be clean. If they are left unconsidered, the suction cups won't install correctly and it may cause accidental loss.

### **REGULARLY CHECK PRESSURE WARNING INDICATOR**

Recheck Pump every 60 minutes. If the red line is visible, Re-pump the cup without losing the remaining vacuum, till Red Line disappears.

### **IT IS RECOMMENDED TO ENSURE ADDITIONAL SUPPORT**

Always utilize safety/tension straps as a backup, to guarantee further protection. The steadiness and holding force must also be tested before shooting.

### **BE HIGHLY VIGILANT WHILE OPERATING**

The horizontal and vertical areas around the vehicle must be kept free. Use only on secured roads/areas. Be very careful while using on public roads.

### **NEVER LEAVE THE FIXTURES LOOSE**

All the knobs/screws must be locked tightly to avoid unbalancing of the whole camera setup.

FOLLOWING THESE GUIDELINES WILL PROVIDE BETTER SHOTS AND TROUBLE FREE OPERATION.

SHOULD YOU NEED ADDITIONAL INFORMATION, TECHNICAL ASSISTANCE IS AVAILABLE 'ONLINE' BY CONTACTING YOUR SALES REPRESENTATIVE

## ■ Assembling

- To guarantee proper adhesion of suction cups, check that the surfaces of cup & mounting surface are clean, dry & dust-free. Please mount it on smooth, even & non-porous surfaces.
- Remove the dust cover and place your first suction cup on the selected position where you want to shoot.

- Press down the suction cup and keep pushing the pump to firmly fix it on surface. Repeat this process for all suction cups.

- You can easily adjust/level the angle of each arm through the provided knob in 360° rotation, which gives extra flexibility, and thus you can mount the cups to virtually any part of vehicle.

- You can extend the length of Rosette Arms from 12.5cm to 17.5cm with the help of red knob as per your setup requirement.

- Adjust/rotate ARRI Standard Rosette bearings up to 270° to your requirements, with the help of provided knob.

- Attach the Gimbal Vibration Isolator Plate with Rosette Extension Arms and secure it carefully by tightening the knobs.

- There is a provision to mount V-mount battery (Not Included) on the V-mount battery plate.

- Although the Gripmax's holding force is adequate for regular driving shots, safety belts/tension straps must be used for additional security. When mounted on cars, the objects attached to the Gripmax (e.g. camera, gimbal, etc.) have to be secured additionally. Use the rubber sleeves to avoid dents and scratches on car paint. Tighten tension straps carefully to avoid damages.

**Note:** Test all fixtures before driving.

## **YOUR PROAIM GRIPMAX VIBRATION ISOLATOR SUCTION CAR MOUNT ALL DRESSED UP AND READY TO GO!**

**(SHOWN WITH OPTIONAL ACCESSORIES)**

### **WARRANTY**

We offer a one year warranty for our products from the date of purchase.

We will repair or replace your product, free of charge, in the event of a defect in materials or craftsmanship obtained during normal use or handling based on the user manual. Please note that we will not cover any shipping costs for returning the product to us. If any VAT or import duties are applied to the return, we will also charge these costs to the customer.

The warranty does not include, by the way of example, damage caused by products that we do not supply or from mishandling in transit, accident, misuse, neglect, lack of care of the product, or service by anyone other than our company.

We are not liable for incidental or consequential damages resulting from the use of the unit or occurring due to any breach of this warranty.

Replacement parts of the product will be provided at nominal cost (covering the cost price of the replacement parts only) to the customers after the Warranty Period has expired. We will cover the complete cost of sending replacement parts within the warranty period. After that, Nominal cost of the product & Actual shipping cost will be charged.

Do not send the unit to us without first getting a response and getting the approval to send back the item.

In case of any kind of dissatisfaction, we urge you to **Contact us** immediately and we shall do our Best to help you out. For any other assistance you can reach us via email.
